I'm Wafiyatin 'Athiyyah, a Software Engineering student at IDN Polytechnic with a passion for fullstack web development. I've built several web and mobile projects, including a digital library site and backend API integrations using Laravel and Flutter.

## WORK EXPERIENCE

School Project  
February - 2025

### IT Seminar Organizer - Laravel Framework

Organized and delivered an introductory Laravel seminar covering MVC concepts, routing, and basic CRUD operations for beginner web developers.

IDN Foundation  
November - 2024

### Volunteer Instructor - IDN Mengajar Program

Taught basic web development (HTML & CSS) to high school students as part of a community tech education program.

Ongoing (2024-  
2025)

### Web & App Developer - Academic Projects

Developed 7 websites and 2 mobile applications as part of semester projects, focusing on frontend/backend integration, user experience, and real-world functionality using technologies such as Laravel, Flutter, and MySQL.

## EDUCATION

Polytechnic IDN  
2024 - present

### Bachelor's Degree in Software Engineering Technology

Bachelor's student in Software Engineering at Politeknik IDN, focused on fullstack web and mobile development with Laravel and Flutter.

Ibnu Katsir Qur'anic  
Learning Center  
2021-2024

### Social Sciences Major

Graduated from Ibnu Katsir Qur'anic Learning Center with a focus on Islamic studies, consistently scoring above 90 through discipline and dedication.

## HARD SKILLS

Full-Stack Web Dev  
CRUD Systems  
Flutter UI + API  
JavaScript

PHP + MySQL  
Bootstrap  
Audio-Visual Editing  
HTML & Css

## SOFT SKILLS

Public Speaking  
Teamwork  
Problem Solving

## LANGUAGE

English - Basic Proficiency  
Arabic - Intermediate  
Proficiency
